

Nafia Afrin AJ

EDUCATION

Atria Institute Of Technology Bachelor Of Engineering, Computer Science	(12/2020 - Present) 8.2
Mount Carmel 12th	(03/2018 - 03/2020) 86.66%
St Mary's Girls High School SSLC	(02/2004 - 03/2018) 93.44%

PROJECTS

Online Food Ordering Platform

"Developed 'Online Food Ordering' platform using SQL and PHP within a DBMS project. Integrated user authentication, menu selection, cart features, and order tracking for a seamless experience."

Android SMS Application

"Created an Android SMS application using Java and Android SDK. Developed a user-friendly interface for seamless SMS sending, receiving, and management. Ensured data security through encryption and integrated core device functionalities."

Dynamic Bascule Bridge Simulation

"Created a dynamic bascule bridge simulation using C programming and Computer Graphics. Demonstrated real-time mechanical rotation for maritime passage, highlighting strong C skills and graphics fundamentals."
